

ATTESTATION

Calibration method of electrically operated actuator types 3S AIG XS, 3S 300D and 3S 500D

Attestation owner: 3S Antriebe GmbH
Schichauweg 52
D – 12307 Berlin

Applicable test procedures: 3S Torque Calibration – Torque calibration of
3S actuators using 3S TestBench Rev. 1.1
(dated 2019-11-28)

Report: IS-ESA21/19/76

Assessment result:

3S Antriebe GmbH, Berlin, fulfils the requirements for calibration and testing of electrically operated actuator types 3S AIG XS, 3S 300D and 3S 500D acc. to test procedure “3S Torque Calibration” Rev. 1.1.

Test procedures are validated by internal testing. Test results of testbench 1 and 2 are reproducible and similar.

Regular calibration of the corresponding test equipment ensures a constant quality level of tests performed.
